Second Forecast of the Sugarcane Crop of Bengal, 1944-45.

(*Note*.—On an average of the five years ending 1942-43, the area under sugarcane in Bengal has represented some 8·1 per cent of the total area under sugarcane in India.)

Character of the season.—Since the issue of the first forecast in August last, the weather and its effects on the growth of the crop have been favourable. The present condition of the crop is promising.

Area planted.—The total area planted with the crop is estimated at 306,000 acres this year as against 338,400 and 338,500 acres reported respectively in the corresponding and the final forecasts of last year.

Outturn.—According to the District Officers' estimates, the average outturn of the crop for the province this year works out at 83 per cent of the normal as against 74 and 75 per cent in the corresponding and final forecasts of last year.

Condition figure.—The condition figure is estimated at 83 per cent as against a 10 years' average of 85 per cent. This means the condition of this year's crop is equal to 97·6 per cent. of the ten years' average. The current year's acreage is less than that of the previous year by about 9·6 per cent.

In the other municipalities, the elections were generally well contested and aroused a good deal of interest among the rate-payers

3 **Meetings.**—The total number of meetings held during the year under review was 2,989 against 2,894 meetings held in the preceding year Out of this, 108 meetings failed for want of quorum and 313 meetings were adjourned as compared with 88 and 308 meetings respectively, in the preceding year The Nabadwip Municipality again held the largest number of meetings, viz , 149 of which, however, 12 meetings failed for want of quorum, 37 were adjourned, and the attendance of commissioners at these meetings was not very satisfactory, only 50 per cent. of them attending on an average The best record for attendance was that of the Panihati municipality which held 52 meetings with only two adjournments and an average attendance of 90 per cent of the commissioners at these meetings. Six municipalities on the other hand, viz , Ramjibanpur in the Midnapore district, Kanchrapara, North Dum-Dum and Rajpur in the 24-Parganas, Kumarkhali in the Nadia district and Jamalpur in the Mymensingh district, failed to comply even with the statutory requirement of at least one meeting per month The average percentage of attendance of commissioners at meetings was the highest (90 per cent) at Panihati and the lowest (28 per cent) at Rangpur.

Out of this total population, which represented 5·7 per cent. of the total population of the Presidency, only 415,526 or 12 per cent. were rate-payers. In as many as 29 municipalities, as compared with 11 in the preceding year, the rates were paid by less than 10 per cent of the population.
